

Port Campbell Town Centre Project

Bulletin #2
December 2017

HAVE YOUR SAY

The *Port Campbell Town Centre Project* has kicked off! The work being undertaken through this Town Centre Project will develop plans for how the look, feel and function of the Town Centre can be improved for both residents and visitors. So it's important that this project is based on input from the local community.

Council and the consultant team undertook a series of workshops in October with the Community Reference Group, technical stakeholders and the wider community. These workshops resulted in the development of ideas and design principles to be taken forward into a draft concept design. The draft concept design is now being developed and we are seeking your input and feedback.

HOW CAN I PARTICIPATE?

The project team will be in Port Campbell on the 9th of January and will be running an evening community information session. This session will be for the community to review and provide feedback on the **draft concept design**. There will subsequently be further opportunity to provide written submissions and feedback during a public exhibition period until Monday 12th February.

We encourage everyone to come down, have a look, let us know your thoughts, and have a chat to one of the team. The information session will be held at **7.00pm on Tuesday 9th January**. It will be held at the **Arts Space in Lord Street**.

NEED MORE INFO?
